Main Activities of ICDP Thailand 2024

1. Organize Training of trainers
2. Organize facilitator training in many departments, such as churches.
Foundations that work on children and schools
3. Organize training for parents in schools.
4. Prepare a complete Thai language guide for all courses.

The number of people who are interested in the ICDP Program

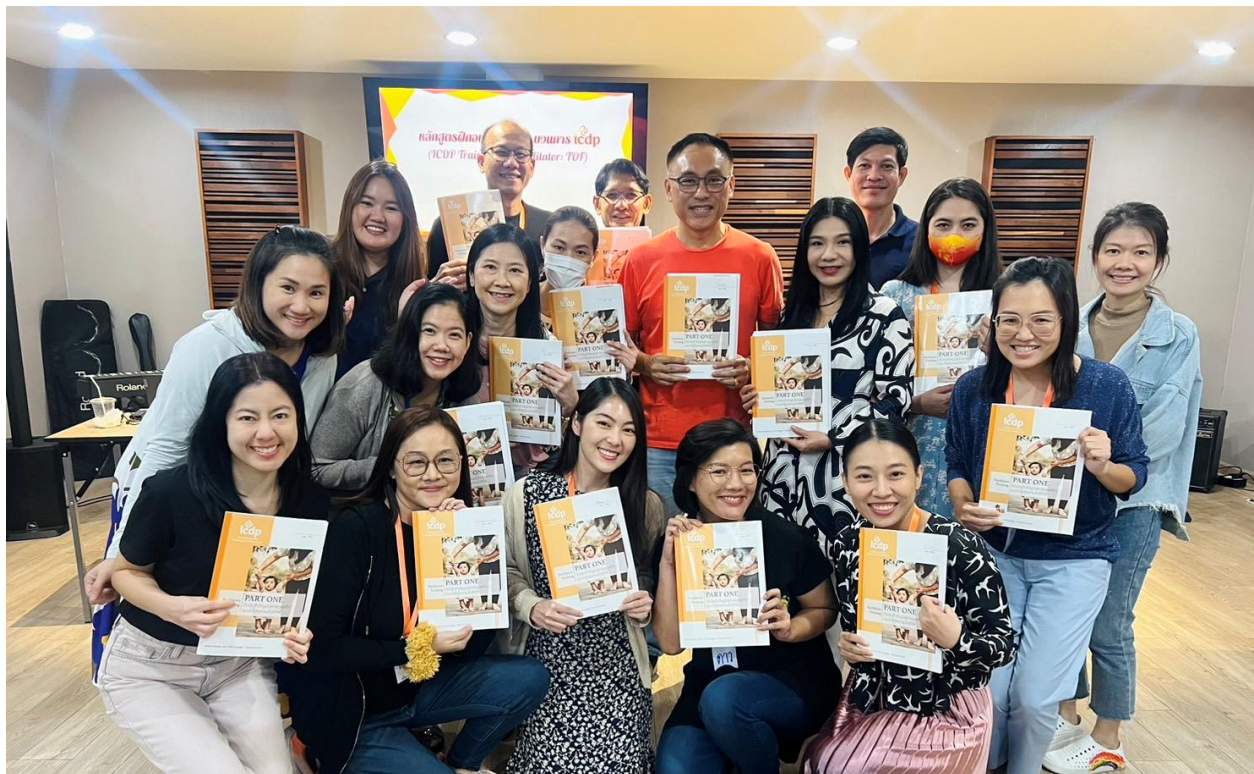

- Trainers

We have 8 ICDP Trainers of Thailand 2024

- Facilitators

We have 25 new Facilitators in 2024, 3 of whom are working with Thai in Norway.

- Care givers groups

We have 120 care givers. and has taken part in the care of more than 500 children.

- ICDP Basic class for KF Bangkok staff

- ICDP Basic class for Sounnoi school

Our work in 2024 has had a positive impact on people in various groups, such as foundation staff, pastors, leaders of children's church groups, Parents who live in the mountains. We have had many **good testimonies**. for example

Example 1: Pastor

This pastor is a man and intends to run the church to bless the children. When learning this course, I started to change myself first as a father of my children at home, to see children as individuals and to be empathetic. He spent more time with his children, and then gave this story to the church team and revived the

feelings of his childhood. I have seen the origin of certain behaviors and have a more positive view of myself.

Example 2: Foundation staff

This woman is responsible for caring for children and widows. She received good encouragement through love language. She found that in addition to knowing and filling love for others, We should also fill ourselves with love so that we can be encouraged to work hard consistently.

Example 3: Missionaries working in Thailand

These people have seen more Thai people's perspectives and attitudes in raising children through role-playing in class. This allows them to apply it to the work they are doing in an understanding way.

Example 4: Single people who need to take care of children's churches

This makes them better understand the child's perspective and can be confident in taking care of the child. Patience is better, love children is easier.

Example 5 : Teacher in KF Bangkok

This course helps teachers to be more confident in caring for children. Cope well with various situations, helping the school atmosphere to be happy. The children told their parents that they wanted to come to school because the teacher understood and loved them. The teacher said that this course helped him a lot.

Difficult challenges for 2024

1. Making the 2024 Facilitator a Continuous Care Givers Group
2. Tracking as ICDP Trainers allows facilitators to organize groups seamlessly.
3. There is a flood situation in many areas in Thailand, affecting coordination and quality group making.

2025 Goals

1. Introducing the ICDP curriculum into public schools.
2. Finding a budget to support the project and teaching teachers to know the hearts of children.

3. Organized a gathering event for those who have passed the ICDP course in Thailand.
